

# Doing My Work

School is closed and we have to stay home.

I still have work to do, even if we have to stay home.

My teacher made a folder with work for me to do every day.

The work helps my brain stay smart!

My mom or dad will help me if the work is too hard.

When I do my work at home, my teacher and my parents are happy!

# COVID-19 & Quarantine

School is closed and we have to stay home.

It is important that we stay home so that we do not get sick or get others sick.

I might miss my friends and teachers, but I will see them when we go back to school.

It might be hard to go back to school because I like to be at home.

My schedule might be different when I go back to school.

I can use breathing strategies or ask my teacher for help if I am overwhelmed.

When we are calm and kind, everyone is happy! I can't wait to go back to school!
